I agree with Tim. Claim 14 should be included with claims 8 and 9.

Helene

Earlier you suggested claims 8 and 9 can be classified in 106. Is that OK to put claim 14 with claim 8 and 9? (see Tim's response).
Thank You!

No, there is no significant coating step for class 427. It is classified with the coating composition in this case.

Would you check if claim 14 is best examined in 427?
Thank You!
Betelhem
